COURSES

Python automation

Stepik

09.2019 - 11.2019

Java basic

AB soft internal course

05.2022 - 07.2022

ACTIVITIES AND INTERESTS

Volunteering

VENIAMIN PETRIKOVSKYI

GENERAL QA ENGINEER

Working experience

I was working with 3 different projects from 3 different domains: game dev, healthcare, telecommunications. I was performing different types of testing, like smoke, regression, system, integration, acceptance, API, DB. I was creating documentation from scratch, performing test design, creating test scope and strategy, implementing test processes, leading the QA team, supporting releases and approving them. I helped a product to achieve 99.99% uptime and reduce number of hotfixes to 0. Also I worked on automation testing. I was automating UI tests with Python + Selenium + pytest and backend, API tests with Java + testNG/JUnit.

- **AB Soft/RingCentral - Senior QA Engineer/Tech Lead**
12.2020 – 07.2023
 - Smoke, regression, integration, system, acceptance, API, DB testing.
 - Working with 3 different international Scrum teams.
 - Creating test strategy and performing test design.
 - Creating test documentation.
 - Supporting and approving releases.
 - Backend automation with Java, Junit, TestNG.
 - Helped to achieve 99% uptime for the product by carving precise test plans, arranging their proper execution, and supporting production rollouts with issues troubleshooting.
 - Helped to reduce the number of hotfixes to 0 for the components on which I was working (no hotfixes and stable work during the year).
- **GT/Carecite – Senior QA Engineer**
06.2022 - today
 - Smoke, regression, integration, design, system, acceptance, DB testing of mobile + web application.
 - Creating test strategy and process from scratch.
 - Testing the no-code application on Web, Android, iOS.
- **Product Engine/Linden Lab - QA Engineer**
12.2018 - 12.2020
 - Smoke, regression, acceptance testing for the website, desktop and mobile application, billing.
 - Frontend automation with Python, Pytest and Selenium.

EDUCATION

Odessa National I.I. Mechnikov University
Economic Cybernetics – master's degree
Sep 2012 - Jul 2018

Familiar with informational technologies in macroeconomic systems, finance, accounting, general ledger, chart of accounts, taxation.

KEY SKILLS AND CHARACTERISTICS

Methodologies:

- Agile (Scrum, Kanban)

QA:

- Smoke, regression, system, integration, acceptance, API, DB testing
- Test design
- Creating documentation
- Jira
- Confluence
- TMT
- Automation testing

Tools:

- MySQL workbench
- Wireshark
- Postman

Programming languages:

- Python
- Java

Automation frameworks:

- Selenium
- Pytest
- TestNG
- JUnit

DevOps:

- CI/CD
- Jenkins
- ArgoCD
- Kubernetes
- Prometheus
- AWS EC2
- AWS CLI
- Airflow
- Kibana
- Grafana
- Swagger

OS:

- Windows (commercial exp)
- macOS (commercial exp)
- Linux (personal exp)

Other:

- Proven ability to work in international, distributed teams
- Knowledge of RESTful API
- VoIP, SIP
- Websocket
- DevTools
